## Nucleobiotics

A carefully selected pattern of active biomacromolecules derived from biofermented plant sources.

## Cross efficacy on multiple skin layers

Stimulates cellular renewal to enhance skin resilience and vitality.

## Lifting and Biostructuring action

Promotes tissue regeneration and boosts physiological collagen production to improve skin firmness and elasticity.

## Youthful and healthy appearance

Reduces dynamic wrinkles, enhances dermal density, and improves skin hydration.

## Powerful tool for advanced modern skin care

An innovative composition for cutting-edge cosmetics with long-lasting results.

## Clean & Conscious Skincare

Ideal for skimalism and sophisticated simplicity.
