

# Renascence Serum

## with Kaligen

### Method:

Weigh the ingredients of phase A and mix them until clear.  
Weigh the ingredients of phase B and mix them until clear.  
If needed heat to 40°C to improve solubilization, then allow to cool.  
Add phase B to phase A and mix until clear. Weigh the ingredients of phase C and mix until homogeneous.  
Weigh the ingredients of phase D and gradually disperse them into phase C under stirring, until a homogeneous dispersion is achieved.  
Combine phase C+D to phase A+B while stirring until a homogeneous emulsion-gel is formed, ensuring the emulsion does not heat up.  
Weigh the ingredients of phase E and mix them until clear.  
Add phase E to the emulsion and mix until homogeneous.

### Comments:

Serum developed at low temperature with an innovative olive oil based emulsifier in powdery form (**Olivoil Glutamate SP**).

**Kaligen** delivers the stimulation of native collagen production increase and improvement of skin cell turnover.

# Formulation

KaliGen

OLIVOIL  
GLUTAMATE SP

KEMIDERM NMF V

#	INCI	[ % ]
A	Aqua	64.2
<b>A</b>	<b>KEMIDERM NMF VEGETALE</b>	<b>5.0</b>
B	Propanediol	3.0
B	Hydroxyacetophenone	0.6
C	Parfum	0.3
C	Olea europaea fruit oil	5.0
C	Coco caprylate	4.2
C	Tocopheryl acetate	0.5
<b>D</b>	<b>OLIVOIL GLUTAMATE SP</b>	<b>0.5</b>
D	Xanthan gum	0.6
D	Sclerotium gum	0.6
<b>E</b>	<b>KALIGEN</b>	<b>0.5</b>
E	Aqua	15.0

## MAIN FEATURES

- REPLUMPING ACTION
- SKIN RENEWAL
- REJUVENATION EFFECT
- LIFTING ACTION
